To Assemble

There are grooves on the top ❶ and the base ❸ that align with the metal rod ❷. Be sure to align each section before sliding it in place.

You can take it apart for travel or storage and easily re-assemble it without any tools.

Stand

❶ Headset Holder
❷ Headset Supporting Rod
❸ USB Port (in back)
❹ LED Ring
❺ Base
❻ Charging Area

Use and Phone Placement

Plug the micro-USB cable end in the back of the stand and connect the USB end to a power source, such as a laptop or to a wall plug (using your own AC adapter).
Place your phone on the charging area. See suggestions below.

YES

YES

NO

NO

The charging voltage is 5V/1A (QC2.0, QC3.0), DC9V. When you plug in the USB cable, the LED ring will glow red. While the phone is charging, the LED will glow blue. The LED will return to red when the phone is fully charged.

Safety Notes:
• Keep the stand clean.
• When you clean the stand, disconnect it from the power source.
• Keep away from water and other liquids.
