Unleash Wireless Freedom

Don't just sit there! You need to move. Get that cup of coffee while still talking. Answer and end calls while you're away from your desk too, by adding a Remote Handset Lifter or Electronic Hook Switch (EHS cable). Eco-DECT lower emissions as well. You will really appreciate the crystal clear sound and voice quality. The noise canceling microphone screens out the noise around you so you will be heard as well as you hear.

The comfortable headband wearing style, with extra large leatherette ear pad, is ideal for those spending a lot of time on the phone. Both Monaural (single ear) and Binaural (dual ear) headset styles are available.
