

Aura Professional™ Conference Phone

Secure Audio Solution for Government and Controlled Environments

NO INTERNET. NO BLUETOOTH. NO DATA LEAVING THE ROOM.

Aura Professional™ is a conference phone for analog (Land line) and PBx. It does not have Bluetooth and is not for the internet. Even the extra microphones are cabled to the phone. It's intended for Defence, Government (federal, state, local), Law enforcement, and other Classified and Confidential environments, such as law offices and health care.

This six (6) microphone conference phone comes with all you need for clear, full-duplex conversations. It automatically adjusts the phone circuitry so you can use it anywhere in the world.

You can experience superior audio in complete confidence.

AURA PROFESSIONAL™ FEATURES

- 01** Analog-only operation: no IP network connectivity, no firmware updates over the internet, no remote access vector.
- 02** Zero digital footprint: voice calls leave no data trail on your network.
- 03** Full duplex, allowing for simultaneous two-way conversations.
- 04** Clear, natural sound made possible by wide band acoustic echo cancellation and dynamic noise suppression. Phone line echo suppression as well.
- 05** Comes with 6 microphones, 4 internal and 2 external. Built-in automatic, intelligent microphone mixing so they can hear you well too.
- 06** You can store 20 numbers in the phone book, and speed dial 20 groups.
- 07** 3 line LCD displays caller ID.
- 08** 5 Watt speaker generates volume up to 90dB.

Part #	CP-3010
UPC	800807300460
MSRP	\$499.99
