

HEAR. BE HEARD.

# ZūM Maestro DECT™ Headset

Secure Wireless Headset for Desk Phones  
No Network. No Bluetooth. No Exposure.

*Reliable, interference-free communication designed for secure, controlled environments*

DIGITAL  
DECT  
6.0

## Stay connected—without connecting to the network Secure Wireless Communication—Without Compromise

In many environments, wireless communication is necessary— but network connectivity is not permitted. The ZūM Maestro DECT™ headset delivers the freedom to move while maintaining a secure, self-contained communication system.

Operating on dedicated DECT technology, the headset connects only to its base station— never to your network, the internet, or external devices. This makes it ideal for government, defense, financial, healthcare, and other security-sensitive environments.

With up to 350 feet of range, users can move throughout their workspace— whether stepping into another office or coordinating with a colleague— while staying fully connected to their desk phone.

Advanced noise-canceling technology ensures clear, professional conversations, even in busy environments. Designed for long work sessions, the lightweight headband and cushioned ear pad provide all-day comfort.

Available in both monaural and binaural styles to meet the needs of different work environments.

Part#	HS-2018 Monaural	HS-2019 Binaural
UPC	800807320307	800807320321
MSRP:	\$179.00	\$189.00
